SUMMARY

I'm a dedicated Software Engineer with a strong foundation in web development, specializing in creating scalable and user-friendly applications. With hands-on experience in building diverse projects, I excel in problem-solving, effective communication, and collaborative teamwork, delivering high-quality solutions that meet client needs and business goals.

EDUCATION

BTS Degree in Web Development

INFSP AIG Khalil Zyat, Blida

September 2022 – April 2025

- Key Courses: Networking, System Design, Databases, UI/UX Design, 3D Modeling, Frontend & backend development
- Senior Project: Developed a patient management system, enhancing operational efficiency

Baccalaureate in Management and Economy

Blida, Algeria | July 2020

Gained skills in analytical thinking and project management applicable to software development

Professional Experience

Internship: P.I Design

Blida, Algeria

September 2024 – April 2025

- Developed a patient management system for dental practices as part of the BTS Degree senior project
- Built using Next.js, PostgreSQL, Prisma, and TypeScript for a robust and scalable solution.
- Collaborated with stakeholders to implement the system, improving operational efficiency and user experience.

Full-stack Developer : Ultra Light - Full time

April 2024 - September 2024

Leading the development of Ultra Light's corporate website. Responsible for architecting a custom web application tailored to the company's unique requirements.
